

8:00 PM Thursday February 27 Burton Cummings Theatre 364 Smith Street

Remember when you used to listen to an entire album? Classic Albums Live does. They recreate the greatest albums from the 60s and 70s live on stage, note for note – cut for cut.

Classic Albums Live will be bringing the iconic Tom Petty and the Heartbreakers album to life with Classic Albums Live Presents: Damn The Torpedoes, February 27 at the Burton Cummings Theatre.

"It's been 40 years since *Damn The Torpedoes* was released," says Classic Albums Live founder, Craig Martin, "It was a time when punk, disco, and a new waver were all exploding. But Ol' Tom stayed the course and wrote a perfect rock album."
